

## Local business updates during lockdown: *Thursday 14<sup>th</sup> May*

We've compiled a list of businesses in Linlithgow, which are still trading despite lockdown, whether that's by delivering or taking classes online. We encourage everyone to support local businesses through this. We're delighted to include more businesses this week than last. If your business isn't here, but should be, please contact us: [office@onelinlithgow.com](mailto:office@onelinlithgow.com).

If your favourite business isn't on this list, have a look at our bespoke One Linlithgow section of [TideOver](https://tideover.co/product-category/one-linlithgow) (tideover.co/product-category/one-linlithgow), where you can buy vouchers to spend when they reopen. They'll receive 75% straight away, so they can keep afloat in the meantime. Many have taken the decision to close until lockdown is lifted, but of all the hundreds of businesses across Linlithgow, whose updates we checked, **none** said they were closing permanently. They're all looking forward to opening their doors to you again when this is all over!

The best way to keep up to date is to check the Facebook (FB) page of the business you'd like to use. We've included contact details with each entry (where available) and divided the list up as follows:

- |                   |             |
|-------------------|-------------|
| 1. Essentials     | 5. Services |
| 2. Health/fitness | 6. Beauty   |
| 3. Food & Drink   | 7. Events   |
| 4. Retail         |             |

### 1. Essentials

*This section includes supermarkets, for everyday essentials, but also banks (there's only one left in Linlithgow) and local suppliers. Thankfully, we've seen off the panic-buying phase, but it's still more important than ever to support your local suppliers... and if you're still finding that flour is in short supply, try Complete Health!*

## 2. Health/fitness

*These are also essential, of course, but more specifically to do with your health, or the health of your pets. If you can help unburden the NHS by contacting your dentist, optician or pharmacist for non-emergency queries, please do so. To keep your mind and body healthy during lockdown, why not join an online fitness session with Flex Fitness or Kinneil Fitness?*

#### 4. Retail

Many of our wonderfully unique, independent businesses operate online, as well as from their bricks-and-mortar premises. Others, such as Linlithgow DIY, have simply adapted to lockdown with ease, taking orders by phone and arranging collection and delivery. In some cases, shops are closed entirely, but the owner wanted to get a message to customers, which we have included here.

## 6. Beauty

*Unfortunately, this sector is likely to be hit hardest in the long term: as non-essential services largely impossible to deliver without physical contact, there's little we can do to support them until not only lockdown is lifted, but also social distancing requirements relaxed. Two such businesses have contacted their clients with offers of remote advice and digital content to keep them looking and feeling beautiful until then!*
